

Web Coordinator's Report CT AWSC Spring Assembly - June 11, 2022

Hello everyone,

I assumed the role of web coordinator last October, and my primary goal since then has been to learn the supporting technology, as well as to assure the website information is current and accurate.

Since the beginning of this year, I have been working along with Group Records and the Phone Service to get meeting information updated and in synch with the WSO website. Meeting updates from the District Representatives were communicated to group records, and then passed along to me to update the Ctalanon website pages. This is an ongoing process so if there are any new changes, DRs should continue to communicate them to us through Group Records. When sending updates please give information about the town, day and time of meeting, and location, so I can make sure to update the correct meeting.

Based on monthly reports from Google and the website logs, the primary Ctalanon.org website visits are to find meeting information. By far the most visited page is the "Meetings by Town" page, followed by the "Meetings by Day" page. This just emphasizes the need for accurate meeting information for members and newcomers.

Also, be sure to let me know if you have upcoming events that you would like posted on the website Events page. I have been posting any of the Anniversary or Event flyers that Taffy distributes, so pass yours along if you have an upcoming event that you would like publicized. I'll also be creating the 2023 Convention page soon to publish information for next year's event.

For more general housekeeping of AWSC records under the Members page, there are some gaps in the documents that have been uploaded to the website over the past few years. The information is presented in different ways in different places so I am working to determine what goes where, and hopefully establish a protocol going for the future.

Respectfully submitted,

Robert T, Web Coordinator
